23 MAR 1976

MEMORANDUM FOR: Director of Technical Service

ATTENTION : Chief, Development & Engineering Division

25X1 FROM :
Deputy Director of Security (PTOS)

SUBJECT : Office of Security R&D Requirements

1. This memorandum sets forth the prioritized requirements of the Office of Security based upon the OTS Program work sheets dated 6 February 1976 and submitted to us at the 8 March 1976 Quarterly meeting between our two offices. The following projects are listed in order of priority:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.

25X1

Two programs entitled "Countermeasures General Support" and "Physical Protection General Support" would be of interest to the Office of Security if they are in effect establishing general funds which Security can call upon to meet contingency requirements that arise from time to time during the year that were not previously programmed for. These two would rank as nine (9) and ten (10) respectively. The following programs were reviewed and found to be of more interest to other Agency components. They were not requested by the Office of Security nor would we endorse them for funding or continuance:

1. Personnel Protection Alarm System
